HUMMER H3 XTREME

The Hummer H3 Xtreme is a complete, self-contained event entertainment system in a package that is sure to bring the "WOW" factor to any event! The venues possibilities are endless, as the vehicle can operate both indoors and outdoors, including in the middle of a field due to its self-contained power capabilities.

This vehicle can adapt to any event theme, as the client can customize the exterior and all the digital media displayed. The DJ system built into the vehicle can send a feed to a master audio system to DJ large scale events and events with multiple entertainment elements.

VEHICLE FEATURES:

- Self-contained (power for outdoor events provided by vehicle)
- Powerful sound system
- Indoor/Outdoor capabilities
- Built-in Pioneer DJ system and PA system with wireless mic for emcee purposes
- LED lights on exterior and interior of vehicle
- Custom digital media playback elements (logos, photos, videos)
- 32" Large LCD screen on roof
- (2) 19" LCD daytime/nighttime screens in windows
- (5) 7" LCD screens inside the vehicle
- Lamborghini doors
- Blank canvas exterior to customize with decals and wrap for any event theme
- System sends feed to master sound system for larger scale events

Weight: 6,001 lbs

Length: 16'

Width: 7' 1"

Height: 6' 1"

E2 XTREME HONDA ELEMENT

The Honda Element E2 Xtreme is unlike any entertainment vehicle you have ever seen.

Often called a "transformer" vehicle because of its unique look, the E2 fits into any event theme, from classy cocktail party to outdoor sporting event. The venues possibilities are endless, as the vehicle can operate both indoors and outdoors, including in the middle of a field due to its self-contained power capabilities. This vehicle can adapt to any event theme, as the client can customize the exterior and all the digital media displayed. The

DJ system built into the vehicle can send a feed to a master audio system to DJ large scale events and events with multiple entertainment elements.

VEHICLE FEATURES:

MINI COOPER XTREME CLUBMAN

Have you ever seen a MINI Cooper with Lamborghini doors and a DJ system built into it? You haven't because the MINI Cooper Xtreme Clubman is the first! This award-winning event entertainment product is the first of its kind in such a compact, self-contained form. The MINI Cooper Xtreme Clubman brings incredible DJ entertainment offerings to locations where events were previously deemed impossible, including smaller venues. This includes indoor locations, as it meets all requirements for indoor venue parking. This vehicle can adapt to any event theme, as the client can customize the exterior and all the digital media displayed. The DJ system built into the vehicle can send a feed to a master audio system to DJ large scale events and events with multiple entertainment elements.

VEHICLE FEATURES:

- Self-contained (power for outdoor events provided by vehicle)
- Powerful sound system
- Indoor/Outdoor capabilities
- Built-in Pioneer DJ system and PA system with wireless mic for emcee purposes

Weight: 2,712 lbs

Length: 12'

Width: 5' 1"

Height: 4' 1"

FAQs

How much time does it take to setup & strike?

- Setup should take no longer than 20 minutes.
- 10 minutes to strike

Are the vehicles self-contained with audio visual features?

- Each vehicle is self-contained with internal & external speakers
- Built-in LED lighting with strobes
- Multiple LCD monitors
- Digital LCD monitor with DVD player can be placed on top center of the roof rack on the Hummer H3 Xtreme
- Additional speakers and lighting available upon request

How much power do the vehicles require?

- One (1) dedicated 20-amp circuit (additional power may be requested depending on the amount of gear for setup)
- Optional "silent" Honda EU2000 Generator available free of charge when access to power is not available (CANNOT be used indoors)

Can the vehicles be used for indoor events?

- All vehicles except the Xtreme Party Truck meet ALL regulations for indoor venue operations
- Battery cut-off switch (built-in power supply)
- "Locked" gas cap; gas tank will have less than 1/4 tank of gas when indoors

How much space should I leave for each vehicle?

- We ask you leave an additional 6ft in length and 4ft in width to the dimensions of the vehicle you are booking.

Can the vehicles be placed on stage?

- Yes, as long as a proper ramp system is provided (ask for details)

Can the vehicles be custom branded?

- Yes, vehicle wraps are available for an additional fee, and are fine as long as they are removed after the contracted event
- Vehicle Magnets or Vehicle Safe Vinyl Stickers can also be applied to all vehicle exteriors

Does the investment cost include a DJ?

- At all times the price quoted will include a DJ/Emcee with each vehicle
- Multilingual DJs are available upon request

Why use these vehicles for my event?

- The Mix On Wheels fleet are the "Ultimate Mobile DJ Systems" on wheels. They can be used anywhere from "The Boardroom to the Beach!"
